

Welcome to Chemelot.

We wish you a safe stay.

Before entering our site, please think about safety and potential hazards.

For after all:

Safe working is important not only for yourself.
Safe working means you can return home safely.
For you, for your colleagues, for everyone.

Safety at Chemelot

Chemelot is a site with many chemical plants. Be aware of the environment in which you are working and behave responsibly. Know the rules, apply them as you should and speak out when you observe unsafe behavior.

Rules

The rules on the site are the same as the rules elsewhere, even the traffic rules. However, some additional rules apply at Chemelot.

Not allowed at Chemelot

Smoking, alcohol and drugs

No drugs or alcohol at work; smoking is allowed only in designated places

Filming and photography

This also holds for filming and photography using mobile phones

Maximum speed 40 km

Traffic at Chemelot

- Respect barriers, do not block fire hydrants and escape routes
- Trains always have priority
- In case of a collision or damage the Security Department must always be notified

Access and checks

- Wear and show your company pass
- Are you bringing goods to or taking goods from the site? Make sure you have the required documents

Alarm at Chemelot

- Do not panic
- Make sure you know in which siren area you are and where you can find escape routes and assembly points
- Do not enter the alarm area and listen to the messages over the PA system

Emergency number 046 - 476 66 66
